Reasons For Allowance

Claims 1-25 have been allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 24 and 25 recites the structural limitation of a conveyor belt washer for cleaning a moving conveyor belt with a pressurized fluid, the belt having opposing first and second planar surfaces, the belt washer comprising a splash plate defining a substantially planar splash surface mounted within the washtank and positioned adjacent the second planar surface whereby the splash surface being sized to substantially correspond with the predetermined area whereby the pressurized fluid passing through the belt is continuously redirected against the second planar surface upon contact with the splash surface, in combination with the rest of the recited structure, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
